Bob's agency provides enhanced due diligence and other services throughout the U.S. and many foreign countries. He's a former federal agent that specialized in international money laundering investigations. For five years, he was a long-term undercover operative working in 8 countries, including Colombia. In an undercover capacity, he became a conduit between corrupt bankers and drug cartels that taught him money laundering techniques previously unknown to the government. His undercover exploits are the subject of a recently released book, *The Infiltrator*.
